I am so proud of your application videos. The student judges were impressed with the quality of your work! I will be in touch in the coming days re: next steps (late summer workshop, beach party a few days before school begins, etc.).

You will need your own editing system for CHSTV (most, if not all, of the current CHSTV students edit on their own Macbook Pro). Your parents are free to contact me for guidance on what to purchase.

While I am retiring from the classroom, most likely I will begin the school year assisting the new teacher. Feel free to reach out to me for anything between now and the new school year. My email and cell number are below.
